Welcome

to the future of business transacting.

Getting started is a simple **4 step process.**

1. Portal Login
2. VAT Setup
3. Store Setup
4. Staff Setup

ezeebit.com

How to

Set up your Merchant Portal

1

Portal Login

Use the link in the email sent to you to retrieve your brand number and login details. Then, go to the Merchant Portal and log in.

2

VAT Setup

Head to “Fees and Tax management” in Settings. Add a fee and call it VAT. Set the "Crypto Collection Tax" at 15%. To add your own premium for crypto transactions, you are able to adjust the "Crypto Collection Service Charge". Keep all other options at zero.

3

Store Setup

Head to “Store”, select ‘Create Store’ to create your store and fill in the required information. A store number will be generated. Use this store number to set up your ePOS device.

4

Staff Setup

Select the ‘Staff’ tab to add staff members to your staff list. This will enable you to make sure that OTP’s are sent directly to individual staff members. You can also create a “Staff Login Password” for your staff members to access the ePOS device.
